Dear Students,

Please note that the Main Registration is starting from 21 July 2025, and fee payment is a prerequisite. The detailed email will follow soon.

Further, this is to inform that the curriculum is designed to offer sufficient flexibility, allowing students to register for courses that align with their academic interests and goals, while adhering to the specified credit limits. The course overload beyond the approved credit limits set by the Senate for the program specific is a violation of Regulations.

We kindly advise all students to carefully consider their course registrations and consult with their Faculty Advisors (FAs) to make informed decisions that best suit their academic plans.

In order to implement the regulations effectively, **the Office of Academic Affairs will drop any overloaded course (s) after the add/drop dates**. Therefore, students are required to take advice from their FAs clearly. In such cases, the student will be liable for their course registration plan and overload course(s) deregistration/drop.

Faculty Advisors and departments will be responsible for ensuring that course overload in specific cases is only in line with the Regulations and not for internships or completing the courses before the specified curriculum duration. The students must register for a specified course, credits, and in the correct category. The FAs are informed to ensure the same.

सादर | Best regards,

रवि जिनगर | Ravi Jingar

सहायक कुलसचिव (कार्यालय शैक्षणिक मामले) | Assistant Registrar (Office of Academic Affairs)
